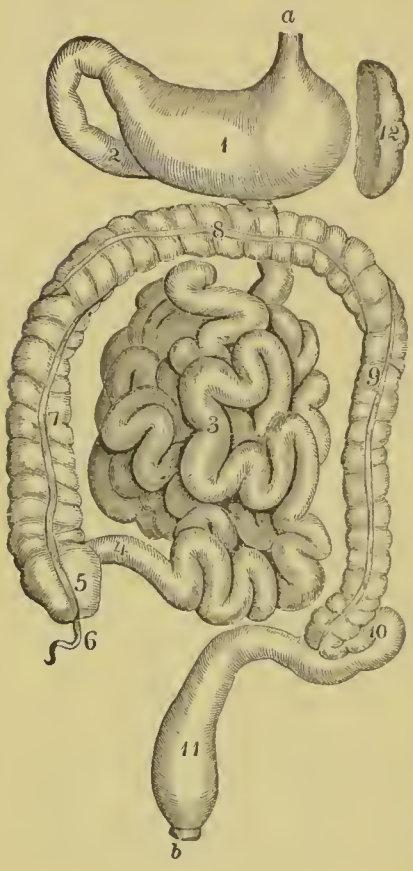
## ALIMENTARY CANAL, STOMACH, SPLEEN, AND BOWELS.

FIG. 10.



*a*. Œsophagus.
1. Stomach.
2. Duodenum.
3. Small intestine.
4. Termination of the ileum.
5. Cæcum.
6. Vermiform appendix.
7. Ascending colon.
8. Transverse colon.
9. Descending colon.
10. Sigmoid flexure of the colon.
11. Rectum.
12. Spleen.
*b*. Anus.

From the tongue to the anus is a consecutive canal with a similar mucous lining. The author has found in states of constipation, where there existed congestion of the alimentary canal, a most efficacious electric treatment by placing the spatula, or tongue-instrument, on the tongue,—positive pole; and an electrode at the anus,—negative pole. See treatment for Constipation.
