Scorbutic Dysentery.—*D.*, A sequela to scurvy.

Scrofula.—Prof. Aitken defines scrofulosis or tuberculosis as follows:

"A particular morbid condition of the system, attended by a persistent increase of temperature, followed by a continuous wasting of the body and the growth of a substance in various tissues and organs, especially the lungs, to which the name of tubercle or tuberculous matter has been applied. These phenomena are associated with peculiarities of outward appearance during life, and liability to certain diseases termed scrofulous, such as swellings of lymphatic glands and of joints, carious ulcerations of bones, frequent and chronic ulcerations of the cornea, ophthalmia, abscesses and cutaneous pustular eruptions, persistent swelling and catarrh of the mucous membrane of the nose, and characteristic thickening and swelling of the upper lip,—lesions which, while they are distinguished by mildness of symptoms, are peculiarly persistent, and follow the application of exciting causes which would have no effect on a healthy person."

Rickets.—*D.*, General failure of nutrition, with muscular debility, bones brittle from imperfect development, spinal curvature and crooked limbs follow, teeth slow in appearing and decay early; nervous irritability a usual accompaniment.

Caries of the Spine.—*Syn.*, Pott's disease; *S.*, pallor, debility, pain in the abdomen, in sudden and severe paroxysms, irritability of temper, stooping forward in walking, rigidity of muscles, a cautious, gliding gait, to avoid concussion of the spine, loss of appetite, swelling of the belly, uneasy sleep, hurried or impeded respiration, tenderness of the spine on pressure, an angular deformity or backward projection of a portion of the spine, paralysis in various degrees, abscesses of the back, discharging externally, or by the lungs, bowels, vagina, or the pus entering the hip-joint.

Morbus Coxarius.—*Syn.*, Hip-joint disease; *S.*, of the most characteristic kind are pain in the knee, without any other sign of disease about that part, a limping gait, the knee bent, treading only on the toes of the affected limb. Examining the
